

Trans Community Support Group

Trans*Ponder is a monthly gathering for trans-identified and gender-questioning folks. It is a place where we can socialize, share resources, and provide support surrounding the achievements and challenges we encounter from living the shared experience of being gender diverse. The Trans*Ponder meetings happen on the 2nd Saturday of every month. We do a potluck for each meeting so please bring a dish or beverage to share IF you are able.

This group is exclusively for trans-identified or gender-questioning folks only. We do adore our partners and allies, and this group was created with a different intention in mind -- to provide a safe space where trans folks from all walks of life can come together and find community no matter their "out" status.
